

Bates Method International

Teachers Listing

The teachers listing helps teachers and colleagues to connect, share, and support each other, and allows the public to contact you for help in learning the Bates Method of Vision Education.

The basic listing is **FREE** for all teachers. This is an info service, and all are welcome to sign up.

You can support us and promote your business – choose one of the following modest subscriptions: **Bronze** Listing, **Silver** Profile, or **Gold** Profile.

Your listing requires completion of a recognised course of vision teacher training or similar study and competence in teaching the Bates method and related Holistic vision modalities.

The listings are for you to use, to connect to your colleagues and extended community of fellow teachers.

The listings are for the public, who can find you when they are seeking advice and will benefit from your help and guidance.

This is a global community of vision educators

We encourage you to build community: share about *your* work of the Bates method, of Vision Education, Holistic Vision, Natural Vision and more. Individuals and entire countries have their own approach and legacy – how has your experience and culture infused your understanding of the subtleties of this work?

Let us find out what we are building on the legacy of Dr Wm. H. Bates.

Welcome!
